RESEARCH

Interests

My research primarily focuses on the use of information in capital markets, corporate disclosure, and transparency and disclosure incentives, with a special and developing interest in topics that lie at the intersection of accounting and environmental economics.

Working papers

“[Why Disclose Privately? Shareholder Litigation Risk and Managers’ Private Disclosure of Earnings Warnings](#)”
(Job market paper)

“[Crowdsourced Forecasts and the Market Reaction to Earnings Announcement News](#)” with David Veenman
(*The Accounting Review* (March 2024), *Forthcoming*)

“Commodity Traders and Local Environmental Regulation” (solo-authored, draft available on request)
